

Clothing

For family portraits, solid colors are best. Please try not to wear prints, they tend to clutter the picture.

Hair and Make-Up

Men with short hair should not get a hair cut within seven days of their portrait session. Women should not try out a new style for their portrait session, but please feel free to do your hair up nice. Ladies should wear make-up, even if you usually don't, it will help to enhance your beauty. Do not wear shimmer eye shadow it can catch the light.

Tips for Slimming

Black or dark colors are slimming. Solid colors are best for portraits. Wearing an outfit that is all one color will make you appear thinner. Do not wear light colored pants. Wear "V" neck shirts to draw attention to your face.

Never wear horizontal stripes. High heels will make you appear taller and thinner.

Stay away from sleeveless shirts, they can make your arms seem a bit heavy.
